Embracing Digital Transformation & Cloud Technology in the MENA Region

HR Managers across the MENA region struggle to find a Human Resource Management System (HRMS) that is designed with their local market requirements, with Arabic language capabilities as well as meeting all regulatory requirements. At the same time the MENA region's startup and growth stage companies are not utilizing the available technology to empower their human capital because HR solutions are costly, require expensive hardware or are too complicated to manage.

Challenges

Looking for a system that gives you the tools to manage your workforce efficiently while not taking up all your budget; one that meets your employees needs and that they can use easily as well?

Ideal Solution

MenalTech's HR Cloud Solutions are priced per active employee and customizable so you only pay for what you need. All our solutions are available in English & Arabic and compliant with local regulations.

Desired Outcomes

Manage your workflow efficiently, reduce operational costs and maximize the potential of your human capital.

MenaTech® Cloud Suite

The future of HR today; with on-the-go and secure access, to manage your human capital simply, quickly and efficiently. Everything you need, Arabized and ready to use.

Comprehensive Cloud Solutions

Our cloud solutions suite is a comprehensive set of products that are designed to help you maximize the efficiency of every department in your organization. Whether it's HR or Sales, our solutions are tailored specifically for companies operating in the MENA region.

Customizable to meet your needs

- Pay as you go
- Competitive prices.
- No license fees.
- No implementation and maintenance fees.

HR Cloud Suite on Microsoft Azure Marketplace

Microsoft Azure customers worldwide now gain access to MenaTech's HR suite to take advantage of the availability, scalability, reliability, and agility of MenaTech's Cloud Services, as well as security of Azure, to shape business strategies with streamlined deployment and management.

MenaLite® is a human resources, personnel, payroll and employee self-services module which functions on the latest cloud technology to provide customers with the best benefit of a hosted online application.

MenaCRM® is a cloud-based and social-media look and feel platform with sales force automation, customer support and local customized features.

MenaTracks® is an ITIL V3.0 certified service desk management system. It is an E-follow up solution that tracks customers & employees issues.

MenaDMS® is a cloud-based documents management system that allows corporates to manage their documents, folders and cabinets online with high security features.

Customer Success: JoPetrol's Digital Transformation Starts with HR

After implementing MenalTech's HRMS platform, the benefits were immediately tangible. Beyond increasing our HR department's workflow efficiency, from a strategic point of view, we were able to access important data that directly contributed to our organizational effectiveness. MenalTech's HRMS system helped us as an organization by improving the level of service we provide to our employees, making our team more efficient and reducing our paper consumption. We consider MenalTech as a partner in our success and their user-friendly solutions have given us the tools to excel as an employer of choice in the market.

80%

Increase on return of
employee investment

With access to HR data and analytics, the team was equipped with accurate information that could help them make smarter decisions to increase their organizational effectiveness.

89%

Increase in employee
satisfaction

The HR department has become more modern, efficient and hassle-free. This means that employees are now offered a high-level of service so they can spend less time on the phone with the HR department figuring out basic information or submitting paperwork.

90%

Increase in HR
efficiency

Digitizing the majority of their functions and operations, means that employees and managers can submit requests such as leaves, vacations, overtime directly on the system without having to fill out forms or call the HR department.
